Village of Round Lake Beach Residents/Businesses

Re: Rollins Road & Nicole Lane/Woodbine Lane Intersection Improvements & Hook Drive Extension Project  
**Nicole Lane Road Closure with Detour Notification**

Via Hand-Delivery

Dear Neighbor:

The Village of Round Lake Beach would like to notify you of an anticipated upcoming road closure and detour. Starting on Monday, June 22, 2026, Nicole Lane will be closed for approximately 2 weeks, north of Rollins Road, approximately 900 feet in length. A detour will route traffic using W. Sprucewood Lane, Circuit Drive, and Rollins Road. This road closure is due to an active roadway construction project expecting to cause traffic delays along Nicole Lane, north of Rollins Road, along with traffic delays at the ALDI parking lot off Nicole Lane. To help alleviate these traffic delays, a road closure along Nicole Lane, north of Rollins Road, with a detour route, will go into effect. It is anticipated that having the road closure in place will also expedite the completion of the roadway construction project along Nicole Lane. The scope of work in this area of roadway being closed will consist of Nicole Lane being widened for left turn lanes at Rollins Road, along with Nicole Lane being widened at the new intersection for the Hook Drive extension.

Businesses Affected:

ALDI – 74 W. Rollins Road	Enter / Exit from Circuit Drive
Advocate Building - 2 E. Rollins Road	Enter / Exit from entrance east of Nicole Lane off Rollins Road
19 <sup>th</sup> Judicial Courthouse – 1792 N. Nicole Lane	Use detour and enter Nicole from W. Sprucewood Lane

To keep the community informed, a project specific website can be found at [www.hookdriveextension.com](http://www.hookdriveextension.com). Residents will be able to find project information, view project updates, and register to receive project updates via email as well.

If you have any questions concerning this project or construction, please contact our Resident Engineer, Enrique Sanchez Ortiz, at 224-818-4724, or the Project Manager, Jennifer Beckman, at 312-806-8727 or visit our project specific website. Para Asistencia en Español, favor de llamar 224-818-4724.
